Aromatherapy and Perfumery Supplies

Item	CATEGORIES	DETAILS
1	<i>Pure & Natural Essential Oils</i>	These are single source pure essential oils for therapeutic purposes. They are extracted either by cold-pressing, distillation, and CO2.
2	<i>Specialty Essential Oils</i>	Premium selection ideal for cosmetic, and perfumery use. Most of these are from single source and can be therapeutic. They are either produce by 3 rd distillation, enfleurage, natural blend of same specie or natural compound blend.
3	<i>Hydrosols-Pure Distillates</i>	These are not commercial floral waters BUT pure distillates; a by-product from hydro-distillation of essential oils.
4	<i>Absolutes</i>	In oil processing industry, these are technically essential oils extracted by organic solvent and or alcohol or gas as CO2. In aromatherapy definition, these are absolutes.
5	<i>Floral Waxes (SEE BOTANICALS)</i>	These are raw-pure waxes; by-products after extraction of the absolutes.
6	<i>Selected Fragrances</i>	These are selected fragrances; most of which cannot be extracted from the plant material to make essential oil, hence compounding is necessary.
7	<i>Natural Medium & Bases</i>	These are good media for essential oils for aroma massage, therapeutic skin care and perfumery. Available as therapeutic lotion base, premium carrier blend, and perfume oil base, and cosmetic alcohol. COMING SOON!
